

I am concerned about expanding LPFM and the effect it would have on FM translators. I currently listen to K-Love via an FM translator and do not want to see it displaced. This radio station has a positive effect on the community that can not be obtained from other sources. So much of today's media is not family friendly and K-Love provides a positive place for families to listen to music and current news events. Please consider what we will be losing if LPFM is allowed to expand.

Thank you. Christie Scott
